

# Louth Classic Car Show

***Sunday 1<sup>st</sup> June 2025***

*Louth & District Lions are pleased to say we are holding the 29<sup>th</sup> Louth Classic Car Show in Deighton Close Fields next to the bypass. Our aim is to hold an event that will give people an enjoyable day and raise money for good local charitable causes.*

*Once again, we are incorporating a 'Food & Drink Fair' Live music and children's entertainment into the event, plus additional attractions, all of which will entice more public to attend this event.*

## **PLEASE NOTE**

Louth Lions have taken the decision NOT to organise a road run this year, for several reasons. The main ones being the costs and number of personnel needed to manage it. So please go straight to Deighton Close Fields between 9.00 and 11.00am. Please note that due to late entrants affecting the judging process, then no car entries will be accepted after 11:30, allowing time for the judging process to take place.

There will be a charge of £6.00 per vehicle to register and entrants will only be allowed on site with your official entry and class number displayed on your window screen. **Note: Classic cars may have up to 2 persons on board, any more than this will be charged at visitor entry price.**

***Note: Due to the additional work and difficulty in allocating space for each class it has been decided that any entries on the day will now be charged £10 and if the car class area is already full, they will be assigned to the overflow area and won't be involved in the judging, so please pre-register.***

***We would like to move away from using the postal system mainly due to cost and workload but appreciate not everyone has email or printers. If you would like to only use email, then please reply with the completed form and I will send the car tag and details back by email for you to print and display in the car. For those that cannot do this then please continue in the same way as previous years.***

*All vehicles entering the show must be mechanically and legally road worthy i.e., Taxed and insured with current MOT certificate if required.*

***Car Class Number Tags, and full instructions will be sent out early May by email or in the SAE.***

*We look forward to seeing you and hope we can all contribute to growing this event.*
